# JollyDeck

# Spread holiday cheer with your training

Twinkling lights, happy elves & reindeers that fly.

Don't miss your chance this season to spread holiday cheer to your employees with JollyDeck. We've created a charming holiday theme filled with all the best bits this season has to offer, but it doesn't just start and stop with a visual background and avatar clothing.

We've designed all the key gamification elements around the holiday to create the best quality experience, from the first email of your campaign to the final second on the clock.

Now is the time to roll out something new and exciting to your learners, contact us today and have a holly, jolly training with JollyDeck!

Transport learners into a wintry, training wonderland with in-game graphics causing visions of leaderboards to dance in their heads.

We'll keep everything merry and bright including your email communications and visuals. Not to mention daily challenges promising to make this yuletide training a jolly one.
